

Artist Statement

Wen's work centers around bringing the outside in. Bringing a sense of delight and appreciation of the natural world to viewers through her art. Manipulating photographs and creating digital images is a large part of Wen's artistic motivation.

Each presentation adds to the pioneering innovations and gives her work edge. Every work generates an artistic tension, followed by the excitement of the actual creation of the work. A dialogue is started, and the work becomes real.

Redmond's techniques can be further investigated in her books- Digital Fiber Art and Other Mixed Media Masterpieces, and Explorations with Collage! Merging Photographs, Paper & Fiber. She offers an online workshop with Fibre Arts Take Two. Find out more about this artist by visiting [her website](#), www.wenredmond.com
